

ALAN DAVID STAATS

5156 West Olive Avenue, #270,
Glendale, AZ 85302 602.790.2636
alan@alanstaats.com

PROFILE

Strong foundation in photography, writing, commercial art, public relations and computer applications complemented by knowledge of business and media operations as well as the need for customer focused service.

Track record of initiative and achievement — seeking out contract, full-time and freelance projects and being selected for positions of responsibility within editorial, commercial and humanitarian organizations.

EXPERIENCE

Alan Staats Photography

2/89-Present

Owner

Successful completion of both editorial and commercial photography, video and graphic arts assignments requiring planning, follow-through, and results that meet client objectives with positive end results.

- **Projects Include:**
- Marketing brochures, collateral materials, print advertisements and web content for a wide variety of large and small corporations, including photographic production, copy writing, editing, layout, logo and image design, prepress, print management, website design, creation and deployment;
- Studio product, fashion and portrait photography;
- Spot news and long form editorial coverage of national and international subjects;
- Video production including script writing, scheduling, staff and talent hiring, editing and project oversight as executive producer

AERObridge, LLC

2005-Present

Media Relations and Photojournalist

Produce photographic and video materials on site used to document the ongoing effort of this worldwide disaster relief logistics organization. My efforts have resulted in many hours of local and network news coverage, both in the United States and internationally, as well as articles in over 75 newspapers and magazines.

- **Projects Include:**
- Produce press releases, photography and video releases for broadcast, print and web media to promote the activities of the organization;
- Accompany and document AERObridge teams during initial relief efforts.

Triple X Industries, LLC

2016-Present

Designer and Photographer

- **Projects Include**
- Production of imagery and layout for company website
- Design high performance suspension seats for off road vehicles using CAD 400 driving a RichPeace Stitchmaster automated sewing platform.

Professional Pilot Magazine

2006

Staff Editor and Photographer

- **Projects Include:**
- Production of helicopter, avionics, synthetic and enhanced vision display-related articles and accompanying photography;
- Aircraft specific operator surveys.

Business and Commercial Aviation Magazine

1985-1991

Staff Editor and Chief Photographer

- **Projects Include:**
- Researched and produced feature articles primarily focused on the rotorcraft industry, ranging in scope from advances in avionics, heliport design and manufacture to operator surveys and long form field studies of helicopter operations;
- Provided all in-house photography for the magazine in support of seven staff editors as well as a group of free-lance contributors.

EXPERIENCE**Flight Level Design**

Owner, White Plains, NY and Greenwich, CT

1977-1985

Projects Include:

- Contract overseas and domestic photojournalism for Gannett, CBS, JB Pictures and Sipa Press;
- Commercial studio product and portrait photography.

The Columbia University Graduate School of Journalism

Adjunct Instructor, NY, NY

1973-1977

Projects Include:

- Adjunct/Staff Instructor covering camera operation, darkroom and studio techniques;
- Assist with film and video production for broadcast workshop.

SKILLS:**Expert level:**

- Adobe Creative Cloud 2023, including Photoshop, Dreamweaver, Muse, Premiere Pro, After Effects, InDesign, Lightroom, Bridge, Audition, SpeedGrade, Edge Animate, Edge Inspect, Prelude, Scout, Story CC, Encore, Encoder, Acrobat Pro.
- Microsoft operating systems and Office software.
- DJI Vision Software and DJI Inspire 1 UAV Operations.
- Aerial air-to-air photography and videography.
- Nikon D800E systems and lenses, Elinchrom Strobes, Chimera light modifiers.

FALCON 50

An exclusive charter aircraft from

PREMIER AVIATION

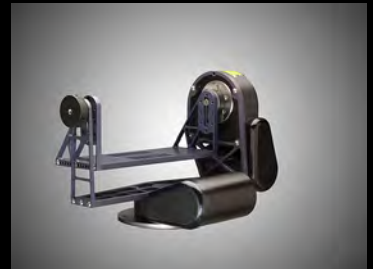

FALCON 50

The Falcon 50 is superior in range, speed, maneuverability, and reliability. It offers a wide range of 1,000 hours, low maintenance, and a superbly equipped interior.

The Falcon 50 sets new standards in passenger comfort on long-haul flights with wide seats in luxurious leather upholstery, reclining and restorable. The baggage is designed to handle virtually any kind of cargo, including complete motor vehicles, which means the Falcon 50 provides passengers with a stand-up quality and a complete entertainment system including VCR and CD player. Greater air charter was never thought.

GAB AIRVAN: THE PLANE THAT WORKS

- 1800 pound useful load
- Excellent short field performance
- 44 square feet of floor space
- 254 cubic feet of cabin volume
- Separate crew entry doors
- 3.3 by 3.3 foot square sliding door, accessible to right
- Seating for six to eight
- Underwing cargo pod available
- One large control station per seat
- Room for two pilots in EMS configuration
- Amphibious floats and skis available upon demand
- Meets the latest FAR Part 23 Standards

From a dip in the back to a dip in the front, the GAB AIRVAN means the health of owners who demand versatility and value.

Strong, reliable, flexible, rugged, reliable, easy to maintain, and a joy to fly, the GAB AIRVAN is the only currently available piston-powered aircraft to meet or exceed the latest FAR Part 23 Amendment G Certification Standards.

Find out how the GAB AIRVAN can meet your needs... call us or send us an email and we'll get you all the info you want about the GAB AIRVAN. It's worth it.

AGUSTA A109 MAX

The A109 MAX maximizes your performance, whether transporting patients, treating trauma or the same or performing low altitude missions requiring specialized equipment. The MAX is the direct result of input from the medical community and the helicopter operators who serve it. We maximized the medical work environment and every part of the A109 MAX's ability to support our medical equipment.

CALL AGUSTA... WE SPEAK EMS.

And made it better...

Reliable Allison 260C-1 engine
Remainable landing gear for unobstructed
access to emergency landing sites
Low maintenance costs & downtime for good
fleet management

And made it better...

New Gross Weight increased to 3900 lbs.
Full body armor for crewmembers
Specialized hoist and medical cases can
work without interference
Standard crew seat remains seated while saving for
patients.

The Humanitarian Alliance

Five-blade propellers,
 1,800-hp rat-rated horses,
 60 million hours of service,
 And now, 30 passengers to cater to.

It's all Garrett TP531 territory.

Of the new engines, 10 examples have already been ordered, 5 to go to the U.S. military support fleet, 5 to the U.S. Air Force. The new engines have the highest power-to-weight ratio of any engine in the world, and the highest power-to-weight ratio of any engine in the world.

All engines will be approved for use in the U.S. military support fleet, and the U.S. Air Force will be the first to use them.
